## Professional Summary

---

Frontend Developer with 4 years of experience delivering scalable, responsive, and high-performance web applications. Specialized in React.js, Next.js and micro frontend architecture. Adept at collaborating with cross-functional teams, optimizing performance, and ensuring seamless user experiences. Skilled in Agile methodologies, CI/CD practices, and application support with a proven track record of modernizing legacy systems and enhancing enterprise applications.

## Technical Skills

---

- **Frontend:** React.js, Next.js, HTML, CSS, Java Script, Bootstrap, Tailwind CSS, Material UI, Micro Frontend
- **State Management:** Redux, Zustand
- **Testing:** Jest (Unit Testing)
- **Version Control:** Git (Git Hub, Git Lab)
- **Tools:** VS Code, Eclipse, JIRA, Rally, Browser Stack, Device Hub, Kibana, Postman
- **Methodologies:** Agile (SCRUM), CI/CD
- **Soft Skills:** Problem Solving, Communication, Collaboration, Adaptability
- **AI Tools:** GitHub Copilot, Chat GPT, Gemini AI, Cursor

## Work Experience

---

Jr. Software Developer | Cognizant Technology Solutions, Hyderabad | Jul 2022 – Present

**Verizon Project** | Oct 2024 – Present

- Developed modular, scalable React.js components for a large-scale micro frontend application.
- Contributed to both development and support activities ensuring system stability.
- Enhanced performance and user experience through optimization and best practices.
- Collaborated with cross-functional teams to deliver features on time.

**AT&T Internal Project** | Nov 2024 – Sept 2025

- Migrated legacy JSP applications to Next.js improving performance and maintainability.
- Delivered responsive, scalable UI solutions using Next.js best practices.
- Partnered with onshore/offshore teams for timely delivery and issue resolution.

**KFC Global Project** | Jul 2022 – Oct 2024

- Enhanced food ordering website with responsive designs and seamless integrations.
- Built reusable design system components ensuring UI consistency.
- Collaborated with backend teams for API integration.
- Improved digital experience and application performance using React.js and Redux.

**Intern | Cognizant Technology Solutions** | Feb 2022 – Jun 2022

- Developed Diagnostic Medical Centre web application using Spring Boot and SQL.
- Designed user-friendly interfaces with HTML, CSS, and JavaScript.
- Gained hands-on experience in full-stack development.

## Key Achievements

---

- Successfully modernized legacy applications into Next.js, reducing maintenance overhead.
- Delivered reusable design systems that improved UI consistency across enterprise projects.
- Optimized React.js applications for performance, improving load times and user engagement.
- Collaborated across global teams ensuring smooth delivery of large-scale projects.

## Education

---

B. Tech in Electronics and Communication Engineering at GMR University during 2019-2022.

Diploma in Electronics and Communication Engineering at SMVM Polytechnic during 2016-2019.

## Declaration

---

I hereby confirm that the information given is true to the best of my knowledge.
